SUMMARY

I am a Freelancing Technical Writer who has experience writing technical documentation, reports, and articles. I specialize in Markdown, LaTeX, XML, XHTML, and content writing absorbing more information by trying to consummate my specialty.

EXPERIENCE

Freelance Writer

Medium

2019 - Ongoing

Medium is a powerful blogging and content syndication platform.

- As an author, I work explicitly with medium claimed publications to deliver content for their readers weekly.
- Generated over 750,000 views on my content from July 2019 to December 2020.
- My writing pivots around the subjects of Python Programming, Data Science, Web Design, and Android Programming.
- This includes tutorials, DIY projects, programming from scratch, and building apps as well.
- Currently, I have written 51 articles and published them in 6 different publications which include: Towards Data Science, Analytics Vidhya, Kt.Academy, The Startup, UX Planet, Level Up Coding.
- Has followers of 1047, total content views of 778,883 from 2019-2020.
- I share my contemplations on Computer Science and Programming on my Medium and its publications and conveying the erudition for both technical and non-technical readers.
